

# Words to Motivate & Inspire

*Commitment Is...*  
*by Ralph Marston*

- Commitment* means acting not just when it is convenient or comfortable, but whenever it is necessary.
- Commitment* means setting priorities and following them without fail.
- Commitment* is more than words, much more than just saying you will.
- Commitment* is doing whatever it takes to make it happen.
- Commitment* is available to anyone who understands and appreciates its value enough to live with it in each and every moment.
- Commitment* requires no special skill, only sufficient desire, and faith in the virtue of the endeavor.
- Commitment* goes ahead and gets the job done, even though opinion and circumstances may fight vigorously against it.
- Commitment* sees things through to completion.
- Commitment* bears the pains of the moment without becoming dismayed.
- Commitment* enjoys the pleasures of the journey without becoming sidetracked.
- Commitment* can be summoned in an instant, and can last for a lifetime. With true commitment, what you intend is surely what you will be.
